Abstract—The abstract goes here. What you need to do is to insert your abstract here. Please try to make it less than 150 words. We suggest that you read this document carefully before you begin processing your manuscript.

I. INTRODUCTION

If you have an introduction to your paper, put it here. This sample file is intended to serve as a “starter file.” You need to cut out our text and then insert your text into this file.

May all your publication endeavors be successful.

A. Subsection Heading Here

Note that you need to use \subsection. Subsection text goes here, if applicable.

1) *Subsubsection Heading*: Insert subsubsection text here.

2) *About This Template*: This sample paper is for latex users. Authors may use the sample paper here to produce their own paper.

3) *Example of a Figure*: An example of a floating figure using the graphicx package. Note that \label must occur AFTER (or within) \caption. For figures, \caption should occur after the \includegraphics.

Fig. 1. Simulation Results

II. MAIN RESULTS

The main results and findings go here.

A. Page Limit and Overlength Page Charges

A paper submitted for this conference should be prepared in a single-spaced, two-column format and its length should be kept to 6 pages and below. This page limit is approximately equivalent to 20 typed, double-spaced pages of manuscript including all graphics. If this page limit is exceeded, an overlength page charge of \$150 per page will be levied against the author. This overlength page charge is to be paid by means of credit card, bank draft or check to OMNI Press at the time of submission of the hard-copy camera-ready manuscript.

Table I shows the page limit and page charge schedule.

TABLE I
PAGE LIMIT

Page limits	6
Excess page charge	\$150/page

III. CONCLUSIONS

The conclusion goes here. This sample paper is for latex users. Authors may use the sample paper here to produce their own paper.

ACKNOWLEDGMENT

The authors would like to thank Mr. XYZ for his/her help. This work was supported in part by the National Science Foundation under grant no. XXXXX, etc.
